

1 Remarks

2 Amendments to the claims:

- 3 • Claim 3 has been amended to correct an inconsistency between claim 1
4 (from which claim 3 depends) and claim 1. Specifically, claim 3 originally
5 recited "each printer device", whereas claim 1 only recites "a printer
6 device".
- 7 • Claims 9-20 are hereby cancelled, without prejudice to later present such
8 claims as permitted by 35 USC § 121.
- 9 • Claims 21-26 are newly added, and generally consist of original claims
10 9-14, but now presented in a form to be dependent from claim 1. That is,
11 new claims 21-26 find support (respectively) in original claims 9-14 (as
12 well as in the portions of the original specification that supported original
13 claims 9-14), but are now rewritten to depend from claim 1.

14 No new matter has been added to the application by way of the amendments.

15
16 Election of Single Disclosed Species

17 A restriction requirement has been imposed upon the Applicant under 35
18 U.S.C. 121. The Examiner has noted in the application three separate inventions, as
19 follows:

- 20 • Invention I, consisting of claims 1-8;
21 • Invention II, consisting of claims 9-14; and
22 • Invention III, consisting of claims 15-20.

23 Accordingly, the Applicant is required to elect a single invention for prosecution
24 on the merits at this time.

25 In response, the Applicant hereby elects Invention I, drawn to claims 1-8. This
election is being made without traverse. As new claims 21-26 depend from elected
claim 1, new claims 21-26 are also included with the election.

1 Claims 9-20 have been cancelled, without prejudice.

2
3 **Summary**

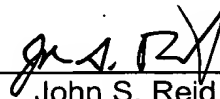

4 The Applicant believes that the election of a single invention, as set forth herein
5 above, constitutes a full and complete response to the Office action.

6
7 Respectfully submitted,

8 Craig R. White
